EXECUTIVE SUMMARY

This report covers the period 1 April – 30 June 2022 and focuses on various highlights during the period:

OVERVIEW - ECONOMIC OUTLOOK

Another 50bps rate hike is anticipated in July following higher-than-expected inflation data released in June

At their latest meeting in May, members of the SARB Monetary Policy Committee (MPC) were unanimous in their decision to continue raising interest rates. With four out of the five committee members in favour of a 50 basis points (bps) increase in the repo rate, the SARB made its largest upward adjustment in lending rates in six years. Since 2016, rate hikes have never been larger than 25bps.

SARB Governor Lesetja Kganyago noted in May that the central bank expected inflation to breach the upper limit of the 3%-6% target range during 2022Q2. This happened with the May inflation reading (published in June) jumping to 6.5% y-o-y compared to expectations of 6.1% y-o-y. Furthermore, risks to the inflation outlook were assessed to the upside, with the SARB suggesting that recent higher-than-expected global inflation numbers could continue to surprise above projections in the months ahead. With this in mind, the SARB expects inflation to return to the favoured middle of the target range (4.50%) by late-2024 only. As such, policymakers are not diverting from their previously stated goal of returning the repo rate to its pre-pandemic level of 6.50%. SARB guidance still

suggests that this would happen by the end of 2024 though it is estimate it would happen in the first half of the year.

It was previously expected the SARB will lift interest rates by another 25bps when policymakers meet next during July. However, following the high inflation reading in May and expectations of a further rise in this reading during June, it is was expected that the MPC will again lift the repo rate by 50bps at its meeting in July. This baseline view includes a further 25bps increase in September and that the central bank will stick to this margin going forward. This would take the repo rate to 5.50% by year-end. If, as the governor fears, inflation readings continue to surprise on the upside over the coming months, the MPC could increase the repo rate by another 100bps during the remainder of 2022 under downside scenario. Room is made for a 50bps increase in July and a 25bps adjustment in September and November. This will be followed by between one and three increases of 25bps each during 2023, depending on the scenario. (*Krugel, 2022*)

Economic growth: Level of output in the economy is back to pre-COVID-19 levels.

South Africa's GDP contracted by 6.4% in the pandemic-hit 2020 and recorded a bounce-back growth rate of 4.9% in 2021 as the world emerged from lockdowns. The size of the 2020 recession could have been smaller if it was not also for the adverse impact of electricity load-shedding; it is estimated that the decline in GDP could have been closer to 3.5% in the absence of power blackouts. A smaller recession would have moderated the size of the 2021 bounce-back in GDP due to smaller base effects, though there is a view that the economy could have grown by another three percentage points in 2021

in the absence of loadshedding. Eskom shed 1,054 gigawatt hours (GWh) during January-April 2022. This started the year off with a 25% increase in average load-shedding intensity per month.

Stats SA reported in early June that real GDP increased by 1.9% q-o-q (on a seasonally adjusted and annualised basis) compared to expectations of about 1.2% q-o-q. All of the ten major industries except for mining recorded q-o-q growth, with manufacturing contributing 0.6 percentage points to the overall growth number.

The volume of goods produced in South African factories increased by 4.7% q-o-q during 2022Q1 with the Absa Purchasing Managers' Index (PMI) March 2022 report reflecting improvements in new sales orders (and, in turn, business activity) as export orders remained positive and local demand benefited from the recovery in the tourism and hospitality sector. The better-than expected q-o-q

growth during 2022Q1 resulted in the economy increasing by 3.0% y-o-y, which was also notably higher than a reading of around 1.8% y-o-y expected by economists. The good news is that the GDP growth seen in 2022Q1 returned the economy to its pre-pandemic size. **(Krugel, 2022)**

The Buy Local campaign and its role in driving economic growth, in response to the above outlook:

Proudly SA continues to have a meaningful role in growing the economy through its role of promoting the buying of locally made products and services, in order to stimulate demand for these products and services, by all sectors of society, such that existing jobs can be retained and new job opportunities can be created.

In order to achieve this, the campaign has the following key focus areas, and these are to:

- Educate consumers on the importance of country-of-origin labels and the economy wide benefits of buying locally made products and services;
- Influence both the public and the private sector(s) to increase their respective levels of local procurement;
- Increase the accessibility of locally made products and services

This is done through various programmes and activities as outlined in the approved Annual Performance Plan, which is derived from the organisational strategic plan and the details contained in this report outlines the progress made during quarter 1 of the 2022/23 financial year.

GOVERNANCE AND OVERSIGHT DURING THE QUARTER

During the period under review, the Board and/or its sub-committees held the following meetings:

3.1) Board Meeting

The Proudly SA Board of Directors met on 29 June 2022 and considered the following:

- The Chairman provided an overview of his strategic activities for the quarter.
- The Board received and considered the Research Report from Thinc Research.
- The meeting approved the Quarterly Report.
- The Board noted the latest Constitutional Court Ruling on Public Procurement and considered as well as deliberated in its impact on the work of the campaign.
- The Board received the list of Companies that received extended payment terms and discounts during the period under review.
- The Board received reports from the Standing Committees.
- The Board considered the Management Accounts and Cash Flow.

3.2) Audit and Risk Committee

The members of the Audit and Risk committee held their meeting on 31 May 2022 and the meeting considered the following:

- The Committee noted that it would receive the Board Evaluation and POPIA internal audit Reports at the next meeting.
- The Committee received the report on the Risk Register and the Risk Management Report, including the measures being implemented to mitigate the identified strategic risks.
- The Committee noted and deliberated on the recent ruling on Public Sector Procurement and agreed that Proudly SA had a substantive role to play.
- The Committee noted the Draft Annual Financials Statements and approved that they be submitted to the AG's office, the External Auditors and would again consider the audited version after the External Audit had been completed.

3.3) Finance and Procurement Committee

The members of the Finance and Procurement committee held their meeting on 6 June 2022 and the meeting considered the following:

- The Committee noted the Draft Annual Financials Statements and would consider them after the External Audit
- The Committee noted the membership fee report and recommended that it be tabled to the Board.
- The Committee considered the list of companies that were being targeted for membership.
- The Committee noted the Management Accounts and Cash flow and recommended them for tabling to the Board.

3.4) Membership, Marketing and Communications Committee

The members of the Membership, Marketing and Communications Committee held their meeting on 2 June 2022 and the meeting considered the following:

- The Committee noted the ruling from the Constitutional Court around Public Sector Regulations and the discussions currently underway at NEDLAC, including those related to the finalisation of the Procurement Bill.
- The Committee noted the research conducted by Thinc Research and resolved that it was important as it would help to position the campaign and its strategic thinking going forward.
- 97 New Members were signed up during the quarter under review and the renewal rate was 82%. There were 20 488 products on the database of products and services.
- The Tender Monitoring System identified 144 bids for designated items in the public sector, of which 65% were fully compliant and 35% were not compliant.
- The Committee noted the Marketing and Localisation Strategies Reports for the period under review.

3.5) HR and Remunerations Committee

The members of the HR and Remunerations Committee held their meeting on 6 June 2022 and the meeting considered the following:

The organogram from January to March 2022 was presented, together with the Organogram which was approved by the Committee at the last meeting, which took effect from April 2022.

The Committee received and noted the reports on Staff Profile and Movements, Training and Development, Performance Management and Staff Welfare.

The performance scores for the quarter under review were tabled to the Committee and were noted.

Proof of submission of the Employment Equity Submission, the Workplace Skills Plan and the Letter of good standing from COIDA were presented to the Committee, in providing assurance regarding compliance by the organisation to the committee.

THE QUARTER UNDER REVIEW

4.1) High level achievements for the quarter

During the quarter under review, the Proudly SA campaign was able to achieve most of its targets as contained in the Annual Performance Plan (APP) for the first quarter of the 2022/23 financial year.

The following were some of the achievements and most of these are reported in detail in Section 5 of the report:

- The above the line campaign as part of the strategic objective of educating consumers on the importance of buying local was able to reach 200 000 consumers;
- The below the line activities were able to reach 2,2 million more people than the targeted 1 million for the quarter;
- In total, 8 Campus/Community targeted competitions or advertising campaigns were rolled out against the planned 2 for first quarter of the current financial year;
- A total of 1 055 tenders issued for designated sectors/products were identified through the monitoring system, and this is 755 more tenders than the initially set target;
- In driving local procurement in the private sector, Proudly SA continues to participate in BUSA's monthly localisation committee meetings and the Localisation Support Fund engagements;
- Presentations on localisation and promoting the database of locally made products were made to at least 7 business chambers, associations and industry bodies, against a target of 2 for the period under review;
- A commitment to continuously review and increase levels of local content in their stores, was received from Shoprite;
- 3 Additional partnerships with large retailers (PPC, SAPPI & Dragger South Africa) were concluded for the current reporting period;
- The organisation exceeded their recruitment target of new members by 14 against the planned target of 80 for the quarter, by signing up 94 new members during the quarter;
- With regard to retention of members, the 80% retention rate was achieved for quarter 1, as the organisation managed to renew 81% of the members due for renewal;
- There has also been an increase in the database of South African supplier products/or services with a total of 376 new products registered against a target of 185 for the period;
- The social media growth amounted to 2% more than the reported number for the prior periods;
- A partnership was concluded with the Dube Tradeport SEZ in order to drive localisation and help our recruitment drive through providing us with access to the tenant companies in the zone; and
- The organisation remains compliant with its financial and human resources administrative and reporting obligations.

AREAS WHERE TARGETS WERE NOT MET:

During the quarter under review, the Proudly SA campaign was not able to achieve all its targets as contained in the Annual Performance Plan (APP) for the first quarter of the 2022/23 financial year, and below are some of the areas where the campaign fell short for the quarter:

- The planned series of public sector procurement forums were halted as a result of the clarity that was still being sought from the Constitutional court following their ruling on the preferential procurement regulations, as it did not specify whether these regulations could still be enforced during this current financial year. Since clarity has been provided and the regulations remain enforceable for this financial year, the forums, at national, provincial and municipality level will be reinstated from Q2 onwards, in order to meet the APP target.
- No member companies have been integrated with the CSD to date however development work has been finalised for both the CSD and Proudly SA systems to synchronise. Proudly SA is also updating its database to ensure alignment with the CSD for integration purposes. National Treasury will soon thereafter confirm the integration date;
- Only 6 Business Forums/Webinars, against a target of 15 forums, took place during Quarter 1, however it is anticipated that the shortfall will be covered during the second and third quarters of the current financial year;
- The departure of the PR Manager during the quarter has resulted in targets not being met for some of the PR related deliverables, including the issuing of 5 press releases, instead of 5 during the quarter. A new PR Manager has been recruited and this will help to again stabilise the department in order for it to reach its annual targets; and
- Proudly SA is to revise its operational plans for subsequent quarters to ensure that it meets its target for quantitative research, specifically with regards to undertaking post event/activations questionnaires. The research concluded by Thinc Research which looked into the impact of the activities and programmes of the campaign gave valuable insights in this regard, and it will assist the campaign develop a scientific basis for its buy local and cal procurement programmes.

MEMBERSHIP REPORT FOR Q1 2022/23

Overview

The Proudly South African membership base is growing at a steady pace with 2,382 companies currently registered as members of the campaign.

In quarter one of 2022/2023, a total of 94 new members were recruited against the target of 80. The growth in new member acquisitions can be partially attributed to Proudly South African's first Wine Exhibition that was held in this quarter. Companies were keen to participate in the wine event for reasons associated to the exposure that their respective brands or products received as well as to the access to market opportunities via the visits to the Expo by various retailers, hotels, restaurants, and their respective buyers.

The rate of retention of member companies for Q1 was 81% which is an improvement when comparing the same periods over the past 2 financial years. In Q1 of 2021 the campaign reached a renewal rate of 72%, whilst in Q1 of 2020 the renewal rate was 45%. This quarter is proof that the data clean up and the new standards set for data integrity is assisting the retentions consultant to achieve the agreed upon retentions target. The lapsed list that is actively being utilised to engage previously lapsed members is also allowing for positive growth in member retention.

The Professional Services and Manufacturing sectors remain the strongest in both new member acquisitions and renewing members. The largest number of new members came from Professional Services. This is especially favorable as most companies view the campaign as being synonymous with advocating for local manufacturers as opposed to service providers. The marketing efforts and access to market platforms is possibly affecting the service industry positively. The manufacturing sector, specifically of food products, was the second largest in new member recruitment. This is positive for the campaign, as logos on food and beverage products offer the campaign greater brand visibility and exposure.

The new member acquisitions and renewal members are still largely located in the 3 large provinces being Gauteng, Western Cape and KwaZulu Natal.

Almost all the new wine manufacturing members came out of the Western Cape and are all female. One of our members explained: Women in the Cape winelands are standing up to be counted, and are now producing their own wine, bottled under the label Women in Wine. A group of 20 women, all with backgrounds in the wine industry, formed the company Women in Wine seven years ago, with "the dream of giving women, especially farm workers and their families, a share in the industry". This is positive as the campaign aims to grow local businesses as well as women in business.

Proudly South African's database of locally made products and services grew by 376 new products and services, exceeding the target of 190. We see a trend of member companies manufacturing a small basket of products only, and not a large assortment of products. They are putting all of their efforts into taking one or two products to market with minimum risk and are joining the campaign in order to reap the access to market benefits available to member companies.

We remain positive that the Market Access Platform (MAP) and the new strategic online partnerships will provide our members with access to market that will drive their anticipated business growth. In this quarter we finalized an MOU with Makro's online store "marketplace". We anticipate that this is the first of many positive joint ventures that aim to offer our members access to market.

HIGHLIGHTS FOR THE QUARTER

Rand Easter Show, 13-18 April 2022

The Rand Show is South Africa's largest consumer lifestyle event staged annually at the Johannesburg Expo Centre, with the 2022 dates confirmed for 13th - 18th April. With a legacy dating back over 125 years the Rand Show remains South Africa's largest and most iconic event that has entertained multiple generations of South African families. The show offered a variety of entertainment, shopping, and experiential activations. Visit the show for live demonstrations and a host of talent and cooking competitions." (www.randshow.co.za)

Proudly SA exhibited at this key event, from 13 to 18 April 2022 and together with the Department of Trade, Industry and Competition (the dtic) bringing in members to exhibit at this event and the following members exhibited at the show: Sihle's Brew, Sister Jenny and Molly Ginger Juice, Kadima 4 Fine dining, and Sheer Elegance (hair products)

The Proudly SA membership team had a booth at the show, as a member recruitment platform. This was a positive and key market access platform for the respective members, who got to market and sell their products to consumers.

Some of the positive points were:

- The members managed to sell their respective products, to different key markets.
- The members products, company logos were branded around the Proudly SA stand, and this stood out, the company exhibition stand was positioned in a key and prime spot.

There was positive feedback from members who were invited to exhibit at the Rand Show Easter 2022 edition, as they found the event to be well received.

- The key reason for taking part in the Rand Easter show edition, was to allow Proudly SA members to have market access platform for selling their products to the various target markets.

Proudly SA member student visit (Angel Shack), 29 April 2022

As a continuation of our member student visits, which started around youth month last year where Proudly SA saw a need from varsity/college students and how Proudly SA could expose them to job opportunities. Proudly SA wanted to expose them to the value chain opportunities in the sector, as well as show them how the sector contributes to our economy's GDP.

Proudly SA took 4 students on a factory tour of Proudly SA member company, Angel Shack in Midrand to expose them to the job opportunities as well show them how locally made furniture can be of high quality and sustainable. David Fish, Managing Director at Angel Shack welcomed the students and they were taken through the history of Angel Shack.

The selected students majored in Industrial and furniture design and were in their 3rd year. They had a hunger to learn more in order to expand their knowledge in the furniture and Industrial sector.

The team at Angel Shack took us through how creativity and innovation can help produce high quality furniture. David further went on to share the amazing stories of how Angel Shack has managed to create jobs for many unemployed individuals over the years. Angel Shack guarantees that all their furniture pieces are locally designed and locally manufactured and that is what sets them apart from other furniture manufacturers.

David and Hilton from Angel Shack took the team through a tour of the factory and showed us the whole process from the cutting of the boards, assembly of the pieces, painting, wrapping, and sending out the complete furniture products.

The second part of the programme was at the Angel Shack showroom in Illovo, where we were then taken through the showroom of the final furniture pieces which showed smart, contemporary office furniture and inspiring and practical designs that are both affordable and practical.

The students were encouraged to ask questions and take pictures throughout the whole tour.

Business Solutions Webinar – part 3, 10 May 2022

Proudly SA hosted a business solutions webinar offering support in skills development. The webinar aimed at assisting businesses in identifying their skills gaps, developing, and honing these skills.

Ms. Jeannine van Straaten Executive: Strategy, Stakeholder Relations and Legal at Proudly SA welcomed all speakers and delegates on the platform and gave background of the business solutions hub and the success it was at the 10th annual Buy Local Summit and Expo and why Proudly SA decided to revisit these once again.

The first speaker of this session was Mr. Fanie Rakosa, Operations Manager for Taxpayer Engagement from SARS shared how SARS collects and ensures that there is optimal compliance with all the revenue legislation. Mr. Rakosa further explained how SARS introduced their 9 strategic objectives, but touched more on three of the 9 objectives as those speak closely to the taxpayers and the public at large. Fanie highlighted how SARS was making their processes easy and simple in order to ensure that all taxpayers could comply.

Ms. Rene Rademeyer shared how Harambee assists in finding scalable solutions to assist youth find jobs that are accessible and visible. Harambee offers a platform called SA Youth and was launched by President Cyril Ramaphosa on the 16th of June 2021. SA Youth is a network that assists the youth through keeping them connected, motivated and assisting them to get access to jobs and learning opportunities.

The broadcast video from SEDA highlighted how they support and promote small enterprises in order to ensure their growth and sustainability. These form part of SEDA's non-financial services in collaboration with 72 other incubation centres. Their goal is aimed at ensuring the growth of the small enterprise sector to increase its contribution to sustainable social and economic development, employment, and wealth creation.

MerSeta's video focused on how they help in closing skills gap in the industry in the manufacturing and engineering and other related services.

Proudly SA new members meet & Greet, 12 May 2022

Proudly SA hosted a Meet & Greet session on its online Zoom platform, where new Proudly SA members were introduced to the campaign and guided on how they can make the most of the membership.

Through this meet-and-greet, new members managed to hear from Siyabonga Zungu, Brand Manager at Proudly SA on the company's look and feel as well as how to effectively use the Proudly South African Logo, for the benefit of their companies.

Alicia Logan, Membership Manager at Proudly SA spoke on the systems that have been put in place to assist members as well as opportunities that Proudly SA offers to all members.

Assistant PR Manager, Tshiamo Ndlovu spoke on the monthly newsletter that keeps all members in the loop regarding the company's communications & PR opportunities.

Mr. Ndlovu also asked Members to communicate and share any news regarding any PR opportunities that the campaign can be part of. The last speaker was the CEO and founder of RSA Made, Karamba Jabbie, who spoke on the RSA Made platform that offers members an opportunity to list and sell their products on the eCommerce platform.

The event was well received as we got a lot of responses and interaction. The next session will be hosted during the next quarter, where we will be doing a rerun of the exact webinar, however, physically with a range of new members who will be introduced to the team.

Target Audience: New and long-standing members

Business Solutions Webinar – part 4, 19 May 2022

The idea was to bring non-financial support entities together and get speakers on an online platform where there could be two-way communication between speakers and delegates.

The entity representatives were then asked to attend to questions and comments that are raised by the delegates, and this was a practical solution-driven online platform that saw quite a positive response from several delegates, that logged in and absorbed the information presented.

The following Stakeholders took part in the session, Mr. Martin Kairu from the Consumer Goods Council of South Africa (CGCSA), Digital Marketing & Standards Lead, Tshaya Mashabela Attorneys, Tumelo Mashabela Director, Patent Attorney, The Companies Tribunal, Selby Magwasha, Manager: Registry, Maximum Profit Recovery (Pty) Ltd, Andiswa Matutu CA (SA) ,Director, The Office of the Tax ombud's Talitha Maude Senior Manager Operations.

It has been generally encouraging, to notice the high interest across the board in the Business Solutions Hub and placing the hub on an online platform was a very welcome suggestion.

The many negative business challenges hampered the development of the business growth and development and this platform saw a call to action from Proudly SA to ease the challenges that some of the companies' face, which can be attributed to administrative challenges of reaching the entities and getting assistance from these entities that have the required solutions.

The delegates interacted and asked pertinent questions regarding the different service offerings of the entities or companies like Tshaya Mashabela Attorneys.

There were 98 RSVPs and the delegates that logged in were low and this hampered the wide reach of the message. The event was restreamed on the YouTube, Facebook, Twitter, LinkedIn, with a hope to increase traction.

On the positive side, the recording will live online on YouTube, and the number of public views is bound to increase, at this stage there is 22 more people who logged in, as opposed to the (1) delegates who logged in on the day of the webinar.

Proudly SA Local High Tea, 21 May 2022

In celebration of International Tea Day, Proudly SA hosted a LOCAL High Tea event showcasing different teas that are locally manufactured. It is through initiatives such as this, is where Proudly SA members are able to come in and access markets through our various activities such as International Tea Day.

The local high tea event was aimed at inviting and empowering small women owned businesses in KZN where an informative dialogue took place focusing on how the tea sector continues to play a role in reducing extreme poverty & creating employment, and guests enjoyed locally manufactured teas, paired with delicious local delicacies.

Proudly SA's responsibility was to ensure that the market was secured for locally made products in all industries, and it is important for consumers to demand locally made products and services to benefit their own economy.

Proudly SA's CMO, Ms. Happy Ngidi shared details related to how the tea sector is a labour-intensive industry that creates thousands of jobs for ordinary South Africans and how the sector contributes immensely to the GDP and economy of our country.

It has an extensive multiplier effect through its entire value chain which culminates into households being taken care of by people who work in the tea farms, the factories, retail, small business, SMME's

MEC for Finance – KZN, Ms. Nomusa Dube-Ncube shared with the audience the case study of three small women owned businesses in the tea space based in KZN, and how 2 of those companies had to close shop due to problems, but one named Intingwe managed to keep its doors open. MEC alluded to how the unemployment rate is increasing and how that can only be changed by how South African's do things and take pride in the amazing and good quality products/services we have as a country.

Ms. Belinda Francis, Managing Director at Tych Labour Solutions and a Proudly SA member shared details of how she became part of the Proudly South African campaign, through a programme by the then Tsogo Sun which opened doors for her business and how she in everything she does lives through the moto “Get Up, Dress Up & Show Up”. Belinda further went to explain how she saw an opportunity to start her own business after being retrenched and saw the need to create jobs in the recruitment space.

Our Last speaker, Ms. Mpumie Nqoko, Assistant Brand Manager at Hulett's, a Proudly SA member company alluded to how Hulett's is proud to be affiliated with Proudly South African and the wonderful work the two companies have partnered in over the years. Ms. Nqoko further explained how Hulett's supports women owned businesses in the KZN region and the job creation element that Hulett's brings to the table.

The local high tea event ended with some giveaways of local hampers to the ladies and a networking session over locally produced tea.

Proudly SA member student visit (Nissan SA), 21 June 2022

Proudly SA took students from the Johannesburg Institute of Technology and Rostec College to Proudly SA member company Nissan's plant, in Rosslyn Pretoria. This visit proved to be very popular, as once students heard about this visit, they applied in numbers.

The day began with a huge welcome from the Nissan Team, as the Corporate Communications & Affairs Officer, Mamokhele Sebatane & Tiisetso Kwap, Government Relations Manager welcomed the students and led the tour.

Our first part of the trip was a welcome Presentation from Vuyokazi Qhupe, the Communications Lead for the Nissan African Unit, spoke on how Nissan began and also gave us an idea of the changes and future ideas that Nissan is implementing.

We then heard from the Health and Safety officer who gave us guidelines and PPE for the Tour. The factory tour was such a huge eye-opener. The students got to see the conveyer belt moving and see cars being assembled by the Nissan engineers and electronic robotics. The students also got to

experience the high-quality assurance that has been put into place to make sure the cars are coming out having no defects.

The trip had students eager to get into the automotive industry as the day's information, experience, and exposure gave them more encouragement to be part of this industry.

PR, COMMUNICATIONS & MEDIA

4.5.1 Summary

The first quarter of the 2022/2023 financial year saw the onboarding of new media monitoring service, Novus Media Monitoring. This is a result of a procurement process that followed the end of Proudly SA's contract with Newsclip, who had serviced the campaign for over six years.

As part of our student-factory visit campaign, we took five young students and a member of the media to the factory of local furniture manufacturer, AngelShack, in Midrand, South Africa, as well as their showroom in Illovo. These visits aim to expose the youth to what happens behind the scenes of South Africa's well-known and most loved brands and industries and expose media to the jobs value chain they create.

In celebration of International Tea Day in May, Proudly SA hosted a Local High Tea event in Musgrave, KwaZulu-Natal to celebrate the industry and to highlight our members in that field. This event was preceded by a media blitz which saw the PR team secure interviews with local media outlets Lotus FM, Vibe FM, Gagasi FM and Isolezwe.

The latter portion of the quarter was a hive of activity with preparations of our inaugural Wine Expo at their peak. We took around 10 young students to Nissan South Africa's factory in Rosslyn, north of Pretoria where they got an in-depth tour of the goings on of the South African vehicle manufacturer.

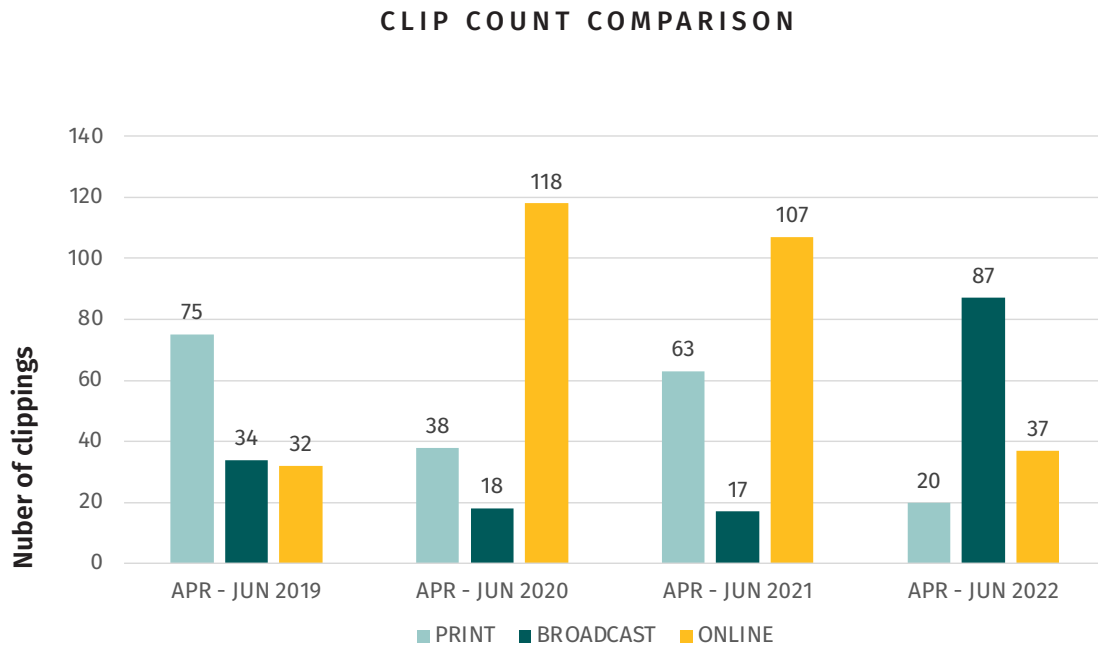

Proudly SA hosted a Local Market Day in partnership with Melrose Arch. The event aimed to give our members who are in the crafts, home industries and cosmetics space a platform to promote their local products to locals and tourists and access to markets and offer a local social experience.

We also hosted a Meet & Greet session, a new quarterly engagement that we will have with new members to introduce them to the Buy Local movement, as well as advise on ways in which their membership can be used optimally.

The first quarter saw the PR team amass coverage worth R10,5 million in PR value, and saw them already surpass the annual social media growth target of 2%.

4.5.2) CLIP COUNT ANALYSIS

The clip count comparison illustrates the total number of media clippings for each media platform i.e. print, broadcast and online for the period under review (Apr –Jun 2022). Comparison is made with the same period in previous years.

4.5.3) AVE/PR VALUE

The advertising value equivalency (AVE) is what editorial coverage would cost it were advertising space or time. PR/Editorial value is derived by multiplying the AVE by three. The total AVE value recorded between April and June 2022 is R3,5 million and the PR/editorial value translates to R10,5 million.

ABOVE THE LINE CAMPAIGNS

The branding focus during the quarter in review was to create visual content for the department. We created design work for the events and activations in the quarter. This included invitations, web banners, ecards and event banners. This work has been done to elevate the level of quality of the webinars to make them look professional and consistent within all the different events happening.

We also worked on advertising elements for the event to drive registration and participation. To create more of a buzz around the event, we used digital advertising to reach a large, targeted audience from our various social media platforms including Twitter, Facebook, LinkedIn and Instagram.

We continue to act as a support function to the Marketing Department and the company by creating presentations for client meetings, high level engagements by the executive team as well as designing ecards, invitations as well as web services for the various initiatives the company undertakes. We created the easter egg hunt competition and the artwork for the wine expo and message for the quarter was 'Local and Proud' and we had that designed place on various platforms.

The SA Vinyls Association is a proud member of the Proudly South African campaign. SAVA stands to create a dynamic, sustainable and responsible vinyl industry in the sub-Saharan region by growing the industry and protecting its future through continuous the latest, scientific needs and researches information. SAVA also represents South Africa as the global stage as a member of the Global Vinyls Council.

www.savinys.co.za

South Africa has a dynamic and burgeoning vinyl manufacturing sector that stands to benefit from adopting the Proudly South African logo as a recognised achievement of local content and quality.

"We have a wide variety of superior vinyl products that are manufactured in South Africa. In many cases, these products are exported around the world. From PVC pipes and gutters, to shoes and sunblocks, from flooring products and door accessories to medical devices - we want these companies to enjoy the benefits offered to them through joint membership to SAVA and Proudly SA," says Muzique

Hutzwauser, CEO of SAVA.

Customers and end users know that SAVA members adhere to international health and safety standards and best practice models. The Association's voluntary Product Stewardship Committee (PSC) specifies safe, responsible use of additives, sustainable manufacturing processes, and closed loop management. This a sustainability awareness that is consumer confidence by displaying further strengthened by displaying the Proudly South African logo as proof of quality and local production.

SA Vinyls Association is a proud member of the Proudly South African campaign

Proudly South African is the country's official Buy Local campaign and mandated to stimulate much-needed PPE creation and reduction in our country through the lobbying for and promotion of local goods, services and industries.

We are a membership-based organisation and only companies that have been audited and approved are entitled to carry the logo which symbolises the adherence of that product or service to required technical thresholds and quality standards.

Starting from as little as R500 per annum, Proudly SA membership provides South African companies with numerous access to market opportunities, including participation in wholesale events, exhibitions and trade shows, access to listing of products on their exclusive local online store as well business to business networking opportunities.

The criteria for Proudly SA membership are:

- Local content: In the case of products, at least 50% of the final cost of production must have been incurred in South Africa. If raw materials have been imported, substantial transformation must have

taken place in our country. For service companies, we consider just local procurement habits.

- Proof of quality: By way of certification, trade or accredited certification body or industry association.
- Adherence to our country's labour and environmental legislation.

” Creating a demand for local goods creates a demand for local jobs! So, choose local and tell others to do so too!

PRIVATE SECTOR

Proudly South African Access to Market Localisation Tools

Proudly SA is actively lobbying for localisation commitments from the private sector, and there are a number of tools in place to help facilitate offtake agreements:

1. Market Access Platform (MAP)
2. Proudly SA's Portals

1. Market Access Platform (MAP) www.mapcollaboration.com

Launched in August 2021, the main goal of the platform is to create a database of reliable local manufacturers and service providers from which businesses that have undertaken to increase their uptake of local products and services can procure. Businesses (“corporate buyers”) utilising MAP will be able to rate listed suppliers, which means that the database is a source of local content and quality vetted companies. Members of Proudly SA are automatically eligible to be enlisted on MAP as “suppliers”. This is yet another tool for matching supply and demand of locally-made goods and services for Proudly SA members.

In quarter 2 of 2022/2023, Proudly SA will commence with loading all willing Proudly SA member companies on MAP whilst it is constantly exploring ways to improve MAP in order to keep it current and to support Corporate Buyers’ preferential procurement targets. In quarter 2 and throughout the financial year, efforts are underway to invite procurement officers from Corporate South Africa to enlist as Corporate Buyers on MAP.

Benefits of MAP:

Corporate Buyers will be able to:

- Find reliable and vetted localised and transformed suppliers
- Refer their high performing transformed suppliers, local manufacturers and service providers to MAP, thereby enabling them to grow and become more competitive
- Advertise procurement opportunities for the private sector
- Support the growth of their own high-performing suppliers
- Increase competitiveness in sourcing suppliers
- Reduce the cost of sourcing
- Rate services received from suppliers
- Record and monitor their localisation procurement commitments
- View the socioeconomic impact of their commercial activity with selected suppliers

Suppliers/member companies will be able to:

- Increase their visibility in a cross-industry marketplace – Access to Market
- Find other suppliers to procure from
- View tenders and RFQs when published for their specific industry
- Report on benefits derived from MAP

2. PROUDLY SA'S COVID-19 PORTALS (www.proudlysa.co.za)

Background and vision

In 2020, Proudly SA partnered the Department of Trade, Industry and Competition (the dtic), the South African Clothing and Textile Workers Union (SACTWU), the Bargaining Council for the Clothing Manufacturing Industry and the Manufacturing Circle to roll out a cloth face mask portal housed on Proudly SA's website to heed the demand for locally-made PPEs in the pandemic. Developing industry- and product-specific portals were also a mechanism for Proudly South African to support the Local Manufacturing Partnership that was created through the Business for South Africa Initiative by showcasing more than 60 manufacturers that were supported by this initiative to close the gap between the supply of locally-manufactured PPEs and demand, and to assist companies to become procurement-ready.

Purpose

These portals comprise a comprehensive list of local manufacturers producing products that have been vetted in accordance with industry standards as determined by the regulators, and in accordance with the specifications determined by the public sector. Individuals interested in procuring local products will have access to the company name, the contact person, the company's location, website and contact details, including an image of the product offering as well as a detailed description. Not only do these portals serve as a marketplace for local manufacturers of PPEs and various other products, they are also indicative of the availability of local products more broadly in the country. The portals provide Procurement Officers the option to procure locally-made products from manufacturers directly, with Proudly South African's connection being synonymous with quality.

Current Product offerings

- face cloth mask
- face shields/visors
- sanitisers
- disinfectants and detergents
- medical PPEs vetted in accordance with the National Department of Health and SAHPRA/NRCS specifications:
 - disposable/plastic aprons
 - disposable/isolation gowns
 - surgical masks
 - FFP2 respirators
 - SAHPRA-licensed sanitisers
 - non-sterile examination, sterile and non-sterile surgical gloves
 - other textile PPEs that include scrubs, bonnets, boot covers, coveralls and shoe covers
- furniture (in partnership with the dtic)

Stakeholders

The portals have been well-received by stakeholders both within the public and private sectors, as well as consumers wishing to procure PPE for everyday use. As PPE has been largely designated by the public sector, Proudly SA has focused mostly on promoting the portals to the private sector. Proudly SA has reached out (and continues to do so) to the Procurement Officers from all spheres of society utilising its membership base, stakeholders that formed a part of the Nedlac Localisation Technical Working Committee namely, the Manufacturing Circle, Business Leadership South Africa (BLSA), Consumer Goods Council of South Africa (CGCSA), and Business Unity South Africa (BUSA) and each body's membership base; the Localisation Support Fund; the associations that form a part of the South African Revenue Services' industry-specific forums; as well as associations and industry bodies; Labour Unions; businesses that form part of the township economy; and Government Departments and Agencies including the dtic through its sector desks, Development Finance Institutions, Department of Small Business Development, the Eastern Cape Development Corporation, Special Economic Zones, and the Gauteng Growth and Development Agency, and National and Provincial Government, Local Municipalities, Metros and State-owned Enterprises.

Proudly SA will strengthen its reach in terms of advocating the support of these tools to the private sector at large. Efforts are underway to obtain localisation commitments from association bodies such as the Franchise Association of South Africa, ***The National Association of Automobile Manufacturers of South Africa, the National Association of Automotive Component and Allied Manufacturers, the South African Furniture Initiative, the South African Petroleum Industry Association, the Banking Association South Africa, the Minerals Council and Mining Equipment Manufacturers of South Africa, the Agricultural Business Chamber of South Africa, the Institute of Plumbing South Africa, the National Hospital Network, the Consumer Goods Council of South Africa, the Tourism Business Council of South Africa, the Restaurant Association, the Taverners Association, and the Self-Care Association of South Africa.***

Proudly SA is participating in various activities to further drive localisation by presenting its localisation tools namely the Portals and MAP to obtain localisation commitments as the first step in securing offtake agreements:

a) Expanding on commitments made at the 2018 Jobs Summit

In 2018, Proudly SA invited 25 companies to make localisation commitments. Since then, Proudly SA has engaged the Franchise Association of South Africa, ***The National Association of Automobile Manufacturers of South Africa, the National Association of Automotive Component and Allied Manufacturers, the South African Furniture Initiative, the South African Petroleum Industry Association, the Banking Association South Africa, the Minerals Council and Mining Equipment Manufacturers of South Africa, the Agricultural Business Chamber of South Africa, the Institute of Plumbing South Africa, the National Hospital Network, the Consumer Goods Council of South Africa, the Tourism Business Council of South Africa, the Restaurant Association, the Taverners Association, and the Self-Care Association of South Africa*** to obtain localisation commitments firstly on industry level, and then from their members (individual companies). Efforts are underway to solidify these commitments and further expand on the list of stakeholders by industry to increase participation of this important and impactful initiative.

At Proudly SA's annual Buy Local Summit and Expo hosted at the Industrial Development Corporation in Gauteng 14 to 16 March 2022, localisation commitments were made by the following corporates:

- The Standard Bank
- OBC Retail
- Absa
- SAB (South African Breweries) Corporate
- TFG (The Foschini Group)
- PG Bison
- Nissan SA
- Aspen Pharmacare

On industry-level:

- NAAMSA (National Association of Automobile Manufacturers of South Africa)
- South African Canegrowers' Association

In June 2022, Shoprite for poultry and its house brands, and Makro for wine purchases have announced that it would support Proudly SA in terms of giving localisation commitments.

b) dtic and other Government Departmental Masterplans

Over and above Consumer Education, Proudly SA is working behind the scenes to lobby for localisation commitments from the private sector to drive demand (by securing offtake agreements).

Currently, Proudly SA is actively participating in:

- Retail-Clothing, Textile, Footwear and Leather
- Sugar
- Poultry
- Steel
- Creative Industries (facilitated by the Department of Small Business Development)
- soon to be signed off Furniture
- soon to be signed off Agriculture and Agro-processing (facilitated by the Department of Agriculture, Land Reform and Rural Development)

Through its partnerships, participation in the following masterplans will follow:

- Automotive through the National Association of Automobile Manufacturers of South Africa (NAAMSA)
- Plastics (through the dtic sector desk)

c) dtic CEO Initiative and Localisation Support Fund Programmes

Proudly SA's Market Access Platform has been earmarked as a procurement tool for both **the dtic** CEO Initiative and the Localisation Support Fund Programmes. **The dtic** CEO Initiative seeks to drive import replacement of 42 products, whilst the Localisation Support Fund, funded by Coca-Cola Beverages South Africa, is identifying specific products to industrialise by unblocking hurdles from a technical viewpoint. Proudly SA is playing a supporting role in both endeavours by assisting the teams to earmark pilot projects and providing introductions to interested stakeholders (including labour, the private sector – including but not limited to retail, plastics, component manufacturers, **the dtic**).

d) Localisation Technical Working Committee (related to the work of the dtic CEO Initiative) now called the BUSA Localisation Committee

Participants of the BUSA Localisation Committee include Proudly SA (who initiated the forum following the 2018 Jobs Summit), Business Unity South Africa, the Manufacturing Circle, the Consumer Goods Council of South Africa, and Business Leadership South Africa. The team initially supported Proudly SA's Market Access Platform as the procurement tool of choice for localised and transformed suppliers, and three engagements were arranged to showcase MAP in 2020/2021 to **the dtic** Minister, and in 2021/2022 to BUSA (as the Nedlac business apex body) and the nominated CEO champions as part of **the dtic** CEO Initiative. With the appointment of a Project Manager by Business Unity South Africa, Proudly SA will continue to support this Committee in further driving import replacement.

Ask from Industry Champions (CEOs)

- Delegate:**
 - Delegate responsibility for implementation to the Procurement Teams
 - One identified point person to interact with PMO
 - Champions will act as promoters of the localisation initiative, including encouraging peers to join the initiative
- Establish Supply and Demand:**
 - PMO will share the supply and demand template with all champions
 - Champions should identify what internal / sectoral capacity they can mobilise
 - Procurement teams to populate supply and demand template
 - For each identified product, procurement teams should identify demand/supply data; manufacturing capacity/capability; opportunities; blockages; current initiatives

- iii) **Additional Support Required:**
 - Submit completed templates to the PMO
 - Direct queries to the PMO
- iv) **Complete Template:**
 - Indicate support required. For example, sourcing of vetted localised and transformed suppliers
 - **The Market Access Platform (MAP)** is available to Industry CEOs and Procurement Teams as a sourcing tool for localised and transformed suppliers

e) Localisation Partnerships

Proudly SA asks for Development Finance Institutions, entities/agencies such as the Special Economic Zones as well as State-Owned Enterprises to include a clause into loan/funding agreements that stipulates in some way a commitment to local procurement by the borrowing entity. Entities targeted include:

DFIs:

- Development Bank of Southern Africa
- Industrial Development Corporation
- Ithala Development Finance Corporation
- Land and Agricultural Development Bank of SA
- National Empowerment Fund
- SEFA Small Enterprise Finance Agency
- Independent Development Trust (IDT)
- Gauteng Growth and Development Agency (GGDA)
- Northern Cape Economic Development, Trade and Investment Promotion Agency (NCEDA)
- Cape Town and Western Cape Tourism, Trade and Investment Promotion Agency (Wesgro)
- Eastern Cape Development Corporation (ECDC)
- Free State Development Corporation
- Limpopo Economic Development Agency (LIEDA)
- Small Enterprise Development Agency
- Public Investment Corporation SOC Ltd
- Eastern Cape Parks and Tourism Agency (ECPTA)

SEZs (through the SEZ CEO Forum):

- Dube TradePort
- OR Tambo
- Tshwane Automotive Special Economic Zone
- East London IDZ
- Saldanha Bay IDZ

SOEs:

- Eskom

Proudly SA is in the process of finalising agreements with the Industrial Development Corporation, the Eastern Cape Development Corporation, the Gauteng Growth and Development Agency, Dube TradePort and the Saldanha IDZ.

f) Enterprise Supplier Development Localisation Initiative

In an effort to drive localisation, Proudly SA has become the access to market partner for various companies with ESD programmes. These partnerships seek to achieve:

- Prioritisation of local manufacturers/service providers for their ESD programmes
- Inclusion of localisation procurement commitments as a condition for beneficiaries
- Promote ESD programmes to the Proudly SA membership base
- Drive economic growth through joint localisation campaigns
- Award Proudly SA membership to qualifying beneficiaries in order for them to participate in other access to market opportunities (Proudly SA member benefits) to reduce reliance on a single corporate customer.

Companies targeted include: Pick n Pay, SAB, Sasol, TELKOM, Massmart, Heineken South Africa, ABSA, Afrisam, Anglo American, Astron Energy (formerly Chevron South Africa), Barclays Africa, Edge Growth and FNB, Exxaro, General Electric, Goodyear, Hatch, Imperial Enterprise, Investec, Macsteel, Mercedes Benz South Africa, Mr Price Group, MTN, Murray and Roberts, Nedbank, Property Point, REAP SOUTH AFRICA, SANLAM, Sappi, Shoprite, Sun International, Distell Group, Empact Group, Multichoice Group, SPAR Group Ltd, Tiger Brands, Tsogo Sun, Unilever, Volkswagen and Woolworths.

g) Department of Small Business Development (DSBD) Retail Programme

Proudly SA is supporting the DSBD in its retail programme:

- Collaboration to run joint Localisation Campaigns with DSBD, SEDA (**Small Enterprise Development Agency**) and SEFA (Small Enterprise Finance Agency)
- Beneficiary companies introduced to Proudly SA for membership
 - 18 out of 20 companies have taken up Proudly SA members
 - 9 companies are already listed in retail stores namely, Dischem and Clicks
- Joint Campaigns are planned for the 9 companies now in retail stores in quarter 4
 - through social media
 - through Proudly SA's Black Friday to Festive Season (social media and catalogue)
 - In-store launch of companies and their listed products
 - Others
- Department to Introduce Proudly SA to participating retailers to collaborate in terms of localisation
- Department to promote Proudly SA and its programmes, especially the Market Access Platform

h) External Stakeholder Forums

The South African Revenue Service Industry Stakeholder Forums

To support the industries that are flooded with imports, SARS convenes quarterly meetings in order to establish areas of collaboration between SARS and industry on a formal basis by considering the protection of the economy, fiscus and people; for SARS to contribute to the efficient and effective regulation of Customs and Excise processes; and to improve South Africa's reputation as a reliable and trustworthy trade partner by promoting facilitation and compliance with legislation.

Proudly SA was invited to participate in all SARS' stakeholder forums each quarter for the following industries: alcohol, sugar and beverages, tyres, plastics, scrap metal, **downstream steel**, tobacco, petrol, furniture, clothing and textile, and footwear and leather.

Members of the committees are informed of trade trends, requirements and developments that impact on business, are provided with advice on issues to enhance/improve trade facilitation and compliance, challenges experienced by SARS or industry are reviewed in order to suggest strategic business direction and best practices.

Members consist of the relevant SARS' representatives from the Customs and Excise teams, government (usually a representative of the applicable dtic sector desk), and industry bodies.

Initially, Proudly SA was introduced to the Customs and Excise team in order to receive assistance on its import replacement project on the basis that there is misinterpretation/misclassification of imports of the Standard Industry Classification codes – especially with the wide use of the word “other” across all sectors. Proudly SA managed to obtain support from the team in this regard as it was established that it is legislated to formally declare imports as per invoicing details. SARS is exploring the possibility to review its processes and systems in order to implement the legislation.

The forums also provide Proudly SA the opportunity to represent member companies, and to report to members on the state of imports in the country with a view to decrease and eventually alleviate dumping of product on the shores of the country.

In 2021/2022, Proudly SA was given the opportunity to present its projects to the bodies present in these stakeholder forums, all with a view to promote industrialisation in the country (to reduce imports as much as possible) by obtaining localisation commitments on industry-level. Efforts are currently underway to meet with the members of the associations present at these forums.

Similarly, Proudly SA is cultivating relationships with Harambee Youth Employment Accelerator, the Franchise Association of South Africa, and the Gauteng Department of Economic Development to participate in its stakeholder forums or other programmes in 2022 and beyond.

i) Sector-specific engagements

Proudly SA hosted the National Hospital Network and its members at two procurement forums for medical PPE and other consumables in February 2022 to gain support for its portals and Market Access Platform.

At the Proudly SA Buy Local Summit and Expo held at the Industrial Development Corporation 14 to 16 March 2022, Proudly SA hosted three sector-specific events in Clothing, Textile, Footwear and Leather; Furniture; and Automotive to highlight the multiplier effect and the extensive value chains these sectors offer, and the vast number of jobs created by companies in this sector – all with a view to encourage the private and public sectors as well as consumers to procure locally-made equivalents to increase demand.

PUBLIC SECTOR

Proudly South African Access to Market Localisation Tools & Activities

Proudly SA is mandated to:

- advocate for the public sector to buy local in terms of the PPPFA through Designation; and
- influence for self-designation where possible.

Proudly SA is actively lobbying for localisation commitments from the public and private sectors, and it has a number of tools and activities in place to help facilitate offtake agreements:

a) Proudly SA's Tender Monitoring Function

To support the efforts to drive stricter adherence to local procurement legislation (within the public sector), Proudly SA has launched the Tender Monitoring Function in April 2017 which now searches through over 815 government and SOE websites for tenders that are required to stipulate an element of local content. As part of Proudly SA's value proposition for members, they are matched with companies that are able to fulfil the tenders and are flagged and sent to **the dtic** to monitor compliance.

The current list of products designated for local content includes:

Designated Products	Local Content Threshold	Date

Proudly SA assists the dtic in categorising tenders in terms of their compliance to local content specifications, whether they are fully compliant, not compliant or whether the local content is unclear. Through the Proudly SA tender monitoring function, the dtic's industrial procurement unit directly addresses non-compliance of tenders/RFQs issued by the entities of government. The unit submits reports on a bi-annual basis. The report for January 2022 to June 2022 will be submitted in the next quarter.

In Q1 of 2022/2023, Proudly SA tender monitoring function picked up 1,055 tenders related to the 28 products designated for local content.

b) Events – Public Sector Procurement Forums (education drive):

With **the dtic** Industrial Procurement Unit, the South African Bureau of Standards, Auditor General of South Africa and National Treasury, Proudly SA facilitates events to educate the public sector on the importance of localisation. Events are facilitate as per follows:

- i) Provincial (all 9 provinces)
- ii) State-owned Enterprise Procurement Forum (one annually)
- iii) Metros (new activity)
- iv) Municipalities through SALGA (new activity)
- v) National in partnership with National Treasury in 2022 (new activity)

c) Updating of Specifications

Piloting office furniture, Proudly SA is working with the dtic sector desk and industry to update specifications and revise the local content thresholds in designation to match what industry can supply.

d) SABS Local Content Verification

Proudly SA is participating and supporting the South African Bureau of Standards in its Local Content Verification Initiative by recognising its local content mark as a part of the Proudly SA Market Access Platform.

e) Integration with the CSD

In order to ease the process for those members of Proudly SA not yet enlisted on National Treasury's Central Supplier Database to enlist by virtue of their memberships (and depending on whether they comply with NT's requirements), Proudly SA is undertaking an integration process with the CSD. Development work for both organisations have been completed. Proudly SA is currently finalising its database for integration.

Members will also have the benefit of the use of the Proudly SA member logo beside their listing to encourage those buying for government, to buy from local manufacturers and service providers where companies' products and services are vetted in terms of Proudly SA's criteria for local content and quality.

f) Proudly South African comments on the Draft Preferential Procurement Regulations, 2022

Proudly SA is lobbying with National Treasury to secure the inclusion of localisation procurement commitments in each and every entity's procurement policy going forward.

Here follows Proudly SA's submission on the Preferential Procurement Regulations to National Treasury:

Introduction

Proudly South African ("Proudly SA") welcomes the Minister of Finance's intention to revise the Preferential Procurement Regulations to improve on the prescription of the threshold amounts in which the 80/20 and 90/10 preference point systems must be used, together with the formula to be applied. However, the draft Regulations completely disregard local production and local content.

Proudly SA's core mandate is to promote the procurement of locally-made products and services rendered across all industries to all spheres of society including but not limited to organs of state. It was expected that the draft Regulations would take into account the key challenges faced in public procurement, namely preferential procurement of locally-produced products and services, but disappointingly, the draft Regulations fail to acknowledge the need to include local content. Therefore, Proudly SA is of the view that the draft Regulations requires urgent reconsideration for the following reasons:

- 1. The draft Regulations are not safeguarding local businesses and local jobs:
With the previous Regulations promoting fairness and transparency in public procurement, the draft Regulations indirectly promote support for companies operating outside the Republic.*
- 2. The draft Regulations are adding to the uncertainty and confusion with respect to localisation for public sector procurement officials who need to procure all manner of items for their operational needs, following a series of court rulings by the Supreme Court of Appeal and the Constitutional Court in a case brought by Afribusines NPC against National Treasury.*
- 3. Following the Constitutional Court ruling which further muddied the legal waters, National Treasury issued a directive to all government agencies that any tender issued before 16 February 2022 should proceed in accordance with the existing PPPFA, and that any tender issued after that date should be held in abeyance and no further tenders should be issued until clarification is received from the apex court on the validity – and suspension – of the terms of the PPPFA.*
- 4. Subsequently, on 3 March 2022, National Treasury issued a further advisory that public sector procurement could resume, with entities free to use their own procurement criteria and advising them that they could apply to National Treasury for exemption of any of the specific clauses of the current Regulations, including from local content requirements.*
- 5. To add insult to injury, new Regulations have been drafted and are currently out for public comment, and all local content provisions that used to be included in the PPPFA have been omitted, with National Treasury presumably trying to avoid another legal wrangle as a result of this.*
- 6. As Proudly South African, we are asking: How serious we are about job creation as a country if we are in a society where some of us might question a programme that is going to sustain jobs and create much needed new job opportunities, in the form of local procurement regulations in the public sector? Who is benefitting from the current status quo if there is a possibility of a legal challenge if mandatory local procurement is included in the Regulations – certainly not the masses who are losing their jobs as a result of the influx of imported products supplied to the state.*

How can National Treasury be serious about job creation when their clearly cautious proposal for new public sector procurement legislation flies in the face of the work of the dtic, of masterplans that have been drafted in a number of sectors, with the inputs of government, organised labour and private sector stakeholders in each of the respective industries – all of which are designed to protect local jobs.

Dumping local content as one of the selection criteria for awarding tenders by public sector entities will set the buy local movement back immeasurably. The Economic Recovery and Reconstruction Plan which has been drawn up in partnership with government, includes local procurement as one of the key drivers of that recovery, and cannot be ignored. This cautious stance by National Treasury is jeopardising the success of the plan by disregarding those 28 items that have been designated for compulsory local procurement and all other localisation considerations that apply.

Already, Transnet, whose procurement record is one that many might question following some of the revelations over the last couple of years, has issued a memo stating that:

“Transnet will no longer be using preference during this period of exemption, that negotiations will continue to be applied for market-related pricing and any other opportunity where Transnet can achieve cost savings and that tenders will not be issued with local content requirements for designated sectors.”

This is just one policy that we have seen been widely shared. What about the other entities? This opens the door for cheap imports which will ring the death knell for local businesses.

The injustice of the proposed amendments to the PPPFA (2000) cannot be permitted and we urge National Treasury to reconsider this position.

It is of the utmost importance that the Regulations provide for and create an environment that will allow for public sector entities to include local content provisions in their respective entity’s preferential procurement regulations in order to promote the buying of goods manufactured in the Republic without discarding other preferential factors including categories of person, business and sectors. More specifically, the Regulations must ensure that local manufacturers are at the heart of every procurement decision made by the public sector.

Our comments are divided into two parts: In Part 1, we share our general observations about Chapter 4 of the draft Public Sector Procurement Bill (“the draft Bill”). In Part 2, we provide clause-by-clause commentary on Chapter 4 of the draft Bill.

1. General observations of the draft Regulations and comments made in relation thereto

The COVID-19 pandemic has brought to light many gaps in the current manner in which government procures. This fact is highlighted by government’s inability to procure sufficiently and efficiently to meet the demand of much needed locally-manufactured textile Personal Protective Equipment for its frontline workers which is designated (in-line with Regulations contained in the Preferential Procurement Policy Framework Act (“PPPFA”)) at a local content threshold of 100%.

Proudly SA is of the view that the public sector’s inability to procure locally-made goods (whether designated or more widely) is the cause of systemic practices which in turn has created supply chain disruptions such as the aforementioned example.

The Regulations should define a system of preferential procurement including designation, thereby negating its implementation as it is not presented within a clearly defined legislative framework to ensure its legal validity. It will be easy for public entities to incorporate this into their respective preferential procurement regulations as the framework, as provided through the instrument of designation that already exists.

Proudly SA therefore recommends that the framework for local procurement should be contained in the Regulations, even if not in the form of an instruction note, but as a guide to assist organs of state not to miss out on including this very important economic imperative.

Proudly SA further recommends that the starting point be that preference should be given to locally-made goods by all organs of state in their respective policies, over and above designation by including certain commitments made by the public sector in the Local Procurement Accord (agreement signed on 31 October 2011 by representatives of labour, government, communities and business to promote local procurement in the country in support of the New Growth Path) in the Regulations: namely,

1. The public sector to commit to actively expanding the list of (national) designated products to be considered by the entities for their policies by at least five products per annum. The list of items must be in consultation with all social partners.
2. The public sector to commit to significantly expand the value of goods and services it procures from South African producers, over and above national designation by developing and implementing a self-designation policy for each level of government of local products specific to firstly, metro or municipality (including entities reporting to these structures) availability, secondly, regional/provincial (including entities reporting to this level of government) availability, and thirdly, consideration of other provinces (including entities reporting to this level of government) before seeking procurement opportunities outside the borders of the Republic. Such policies must be developed in consultation with social partners and industry, ratified and published to show transparency and accountability by the procurement officers. Should procurement officers seek to procure abroad, reasons for their decisions must also be published in their integrated reports. Proudly SA also recommends that bids and results of the bids continue to be published by each public entity.
3. Centralised purchasing of all (national) designated items through commercialising local technology as per 26(2)(c) of the draft Bill. Proudly SA is of the view that a central point will advance local procurement to ensure aggregated spend, with advantages for economies of scale.
4. To further advance centralised purchasing, procurement officials must have access to product specifications in line with the needs of the Republic and the capabilities of local manufacturers. Therefore, product specifications must be revised and published in one central point to alleviate any confusion from the public sector in order to invite local companies to bid accordingly. Should procurement officials have a need for a product not yet made locally, the contract period should be shortened to ensure local manufacturers seek support from government and/or social partners to build capacity to start manufacturing locally.
5. Development of resources, including people and IT structures, is of utmost importance to ensure that these economic growth objectives that can be attained through local procurement by all organs of state are met.

Object of the draft Bill in 2(c) highlighted the need for “the development of economic capacity in the Republic, through the provision of opportunities for local suppliers to participate in procurement”. Historically, these systemic practices placed a focus on the category of person rather than the origin of the goods procured by the category of person. Placing focus on the latter suggestion, public procurement will be centred around procurement of locally-manufactured goods whether directly from the manufacturer or by a “supplier” defined by preferential factors including the category of persons identified in the draft Bill as previously disadvantaged by unfair discrimination and other determining factors such as the Broad-based Black Economic Empowerment Act etc. (Should manufacturers not be able to fulfil the bids themselves for whatever reason), to ensure “suppliers” procure from local manufacturers, Proudly SA recommends that a full list of suppliers be made available in each bid of qualifying local manufacturers. This list may be updated regularly and published alongside the product specifications as detailed above.

The awarding of tenders and contracts should be done in a way that further advances industrialisation through promoting investment in the Republic. Therefore as an incentive to investors, the public sector should conclude longer term (minimum five-year) procurement agreements, which will serve as off-take agreements in order to introduce a new locally-manufactured product or manufacturer, or to capacitate existing manufacturers who wish to scale in order to meet the procurement needs (in terms of volume) of the public sector.

To ensure the fluid implementation of the local content provisions of each entity's preferential procurement policy and for its integrity to be upheld, consequences for non-compliance must also be addressed in each entity's policy. It is recommended that the entity's accounting authorities work closely with the Office of the Auditor-General of South Africa to ensure that their procurement regulations, which will also cater and provide for preferential procurement of locally-made products, are implemented accordingly. Should any party be found guilty of non-compliance, immediate action should be taken against the party, whether criminal or other, and that such culprit be held liable in their personal capacity (as per the latest amendments to the Public Audit Act). A whistle-blower telephone line/email address for each entity may be used to report non-complying parties anonymously.

2. Preferential Procurement Policy – applicability thereof

See our general comments on preferential procurement in Part 1 above: The Advisory from National Treasury must contain a proper framework for preferential procurement and applicability of local content, where entities wish to implement this, to help guide the entities.

As iterated above, preferences should be given to local manufacturers, or locally-made products procured by local suppliers. An entity may, for instance, give preference to bidders from a particular locality even if the bidder is not considered a top-ranking bidder. Reasonable flexibility must be given to price determination factored as a preference point when considering local manufacturers.

The instrument of designation and the items designated for local procurement, as well as the current local content declaration formula/method and process, supported by SABS' ability to verify levels of local content as declared by bidders and/or suppliers through their local content verification scheme should continue to serve as a guide and reference point for entities.

Proudly SA would like to re-iterate the importance of considering local manufacturers for its bids; hence, the importance of including local manufacturers

in developing general product specifications, and open access to a manufacturers list alongside specifications to ensure the involvement of industry (with a view to industrialise). Suppliers may work with manufacturers in a mentoring/JV system when bidding to advance transformation in the country and promote industrialisation.
